Water Conservation Series

Part 3

- Main Question:
- How can Mt. Shasta area residents conserve water and be prepared for extended drought?

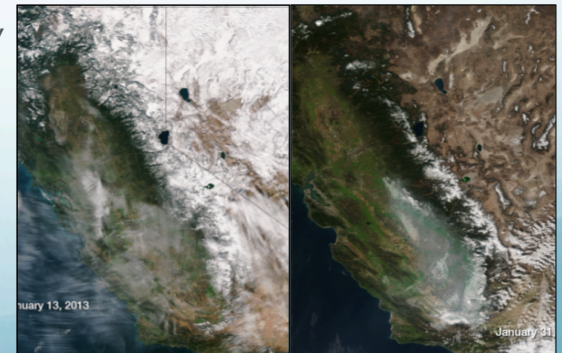

Desired Learning and Meeting Outcomes

- Be familiar with the basic components of Mt. Shasta City's Water Supply infrastructure and be updated on Cold Springs Production
- Be familiar with the City's emergency water reduction policy and process for implementing this policy and developing new policies
- Provide meaningful input to the City's policy process
- Know what changes to expect with the installation of water meters
- Know how to read water meter for basic information and usage.
- Know City's plan for a rate study and when to expect detailed bills

Drought Policy Conversation

- *View of Mt. Shasta's Water System Video*
- *Water Supply Line Replacement and Water Meters Installation project updates*
 - **Curtis Paget**, PACE Engineering
- *State Drought Policy and Rural Communities*
 - **Dave Todd**, Department of Water Resources
- *City of Mt. Shasta Water Reduction Policy*
 - **Geoff Harkness and Rod Bryan**, City of Mt. Shasta
- *Facilitated Community Conversation on Drought Policy*
 - **Elizabeth Betancourt**, Forsgren Associates Inc.
